Laifong Leung, University of Alberta

*attended March 13 meeting

Meeting Summary
March 13 2003

- A variety of topics and issues related to on-line support for teachers and students in both the Chinese Language and Culture programs and the Chinese bilingual programs were discussed.
- It was determined that John Sokolowski would contact Gary Popowich, Director of Learning Technologies Branch of Alberta Learning, to establish a meeting date. The purpose of the meeting would be to discuss the possibility of initiating a contract for a research project that would explore on-line possibilities (such as the resources that currently exist) to support Chinese language programming for Alberta's students. (done, and meeting date to be determined very soon)
- Cathay Foundation would be the executing agency for the above research project.
- John Sokolowski will establish a meeting with Xu Lin of the Consulate General of the People's Republic of China from Vancouver to explore other possibilities. (done, and meeting will be held April 24).
- Pending the results of the above meetings, another subcommittee meeting may potentially be held.
